

## SMART 901 Cutter For Mineral Wool

### USAGE:

The SMART 901 is a metal cutter tailored for mineral wool insulation materials. With a diameter of Ø65, it offers precision cuts, ensuring the correct fit and structural integrity of the mineral wool when holes are required.

When working with insulation, using the right tools ensures accuracy, efficiency, and safety. The specific diameters of these cutters are designed to match common installation requirements.

Cutter	Size (mm)	Packaging (vnt)
SMART 901	Ø65	1
